Acknowledgements

The Canada-Brazil Trade Report 2024-2025 was prepared under the responsibility of Cristiane Giacomazzi, Flavia Batista and Julio Carneiro. The authors would like to thank the WTO Secretariat for inspiration and the data providers for their valuable contributions.

Written contributions and research assistance were provided by the analysis team. Valuable comments on drafts of the report were received from trade policy experts and industry stakeholders.

The production of the report was managed by the authors. Gratitude is also due to colleagues who provided feedback and support.

Foreword by the Authors

Rapid changes in global trade patterns are transforming the Canada-Brazil economic relationship. This edition of the Canada-Brazil Trade Report examines the evolving dynamics between these two major economies and what this means for future growth and cooperation.

Building on previous analysis, this report draws on comprehensive trade data to provide insights into provincial performance, product trends, and future opportunities. WTO-style simulations suggest that continued trade integration could boost bilateral commerce significantly over the coming years.

The central question addressed in this report is whether, and how, Canada and Brazil can leverage their trade relationship for mutual benefit. The message is clear: focused attention on high-growth regions and products can maximize impact, but this potential can only be realized through deliberate policy choices.

The analysis presented here shows that, with the right mix of trade strategies and policy coordination, the Canada-Brazil trade partnership can create new growth opportunities for both economies.

A. Executive Summary

Canada–Brazil bilateral trade reached $14,470,332,741 in 2025, representing a +16.0% change from 2024 ($12,476,738,128).
This growth has been driven primarily by Ontario and Cocoa and Cocoa Preparations.

KEY FINDINGS:
• Total trade grew +16.0% between 2024 and 2025
• Ontario is the primary growth engine, contributing 68.8% of total growth
• Cocoa and Cocoa Preparations leads product growth at 212.2%
• Top 1 provinces drive 80% of growth (Pareto principle)
• 6-month forecast: +2.2% growth expected ($7,641,817,188 total)
• Confidence level: HIGH (R^2=0.960, MAPE=2.5%)

STRATEGIC IMPERATIVE:
Focus resources on Ontario and Cocoa and Cocoa Preparations to maximize impact, as these two areas combined represent the majority of growth opportunity.

v

TRADE GROWTH	PRIMARY DRIVER	TOP PRODUCT	6-MONTH FORECAST
+16.0%	Ontario	Cocoa and Cocoa Preparations	+2.2%
2024 → 2025	68.8% of growth	+212.2%	HIGH confidence

1. Introduction

The Canada-Brazil trade relationship has evolved significantly over the past five years. This report examines the complex and evolving dynamics between these two economies and explores how trade can continue to be a force for mutual benefit.

1.1 What is this report about?

This report provides a comprehensive analysis of Canada-Brazil trade patterns, provincial performance, product trends, and future forecasts. It builds on previous analyses to offer insights into the opportunities and challenges facing bilateral trade.

1.2 Key questions addressed

- How has total trade value and balance changed between 2024 and 2025?
- Which provinces are driving growth and which are declining?
- What products are leading trade expansion?
- What does the 6-month forecast indicate for future trade?

1.3 Structure of this report

Section 2 examines trade overview and balance. Section 3 provides detailed provincial analysis. Section 4 analyzes product performance. Section 5 identifies growth drivers and contributions. Section 6 presents forecast analysis. Section 7 offers strategic recommendations.

1

2. Trade Overview

KEY POINTS

- Total bilateral trade reached $14,470,332,741 in 2025, up +16.0% from 2024
- Trade growth accelerated in 2024–2025, driven by strong export performance
- The trade balance shifted by $-713,053,291 over the period

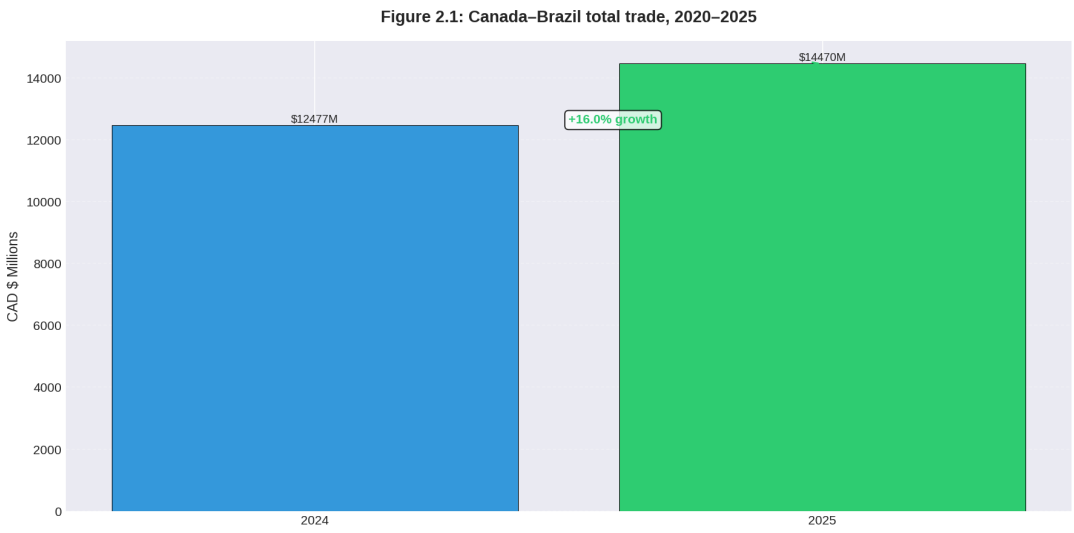

Figure 2.1: Canada–Brazil total trade, 2024–2025

Source: Authors' calculations based on national trade data.

Table 2.1: Annual trade statistics (CAD $ millions)

Year	Total Trade	Exports	Imports	Balance
2024	$12,477M	$2,248M	$10,229M	$-7,981M
2025	$14,470M	$2,888M	$11,582M	$-8,694M

2

3. Provincial Analysis

KEY POINTS

- 9 provinces recorded growth, 3 provinces declined
- Ontario leads with 23.4% growth
- Ontario and Quebec together account for over 60% of total trade

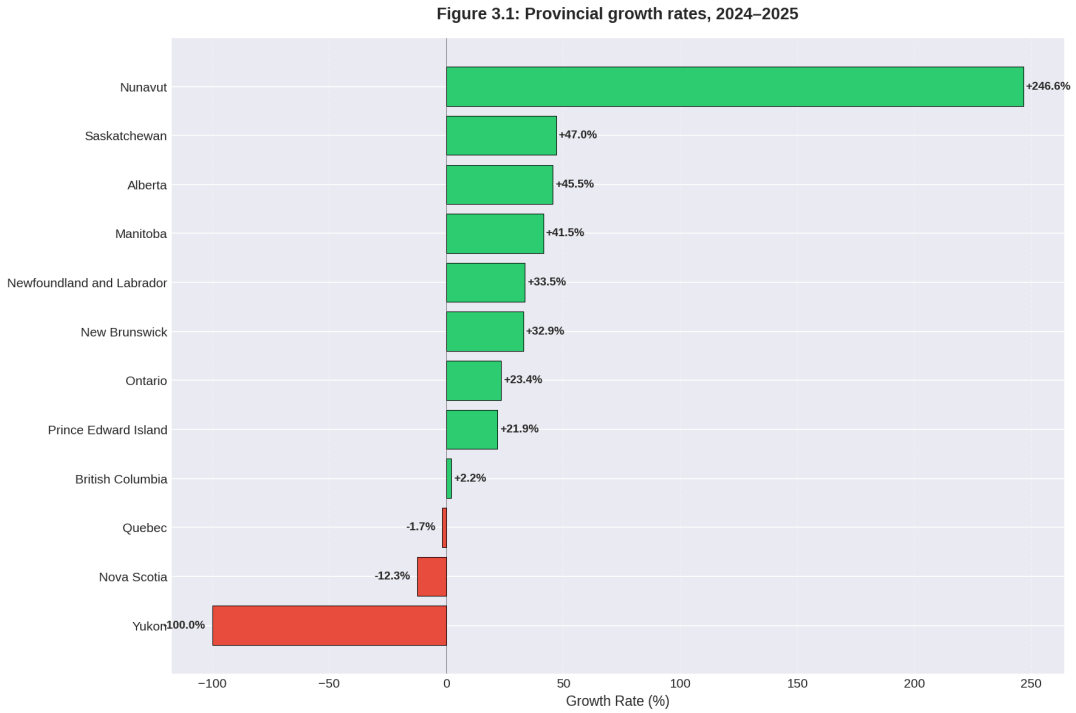

Figure 3.1: Provincial growth rates, 2024–2025

Source: Authors' calculations.

Table 3.1: Provincial market share (%)

Province	2024 Share (%)	2025 Share (%)	Change (pp)
Alberta	1.2%	1.5%	+0.3pp
British Columbia	4.0%	3.5%	-0.5pp
Manitoba	0.7%	0.9%	+0.2pp
New Brunswick	0.9%	1.0%	+0.1pp
Newfoundland and Labrador	0.2%	0.2%	+0.0pp
Nova Scotia	0.6%	0.5%	-0.1pp
Nunavut	0.0%	0.0%	+0.0pp
Ontario	46.9%	49.9%	+3.0pp
Prince Edward Island	0.0%	0.0%	+0.0pp
Quebec	36.1%	30.6%	-5.5pp
Saskatchewan	9.4%	11.9%	+2.5pp
Yukon	0.0%	0.0%	+0.0pp

4. Product Analysis

KEY POINTS

- Cocoa and Cocoa Preparations leads product growth at +212.2%
- Agricultural and resource-based products show strongest growth
- Manufactured goods face competitive pressures from global markets

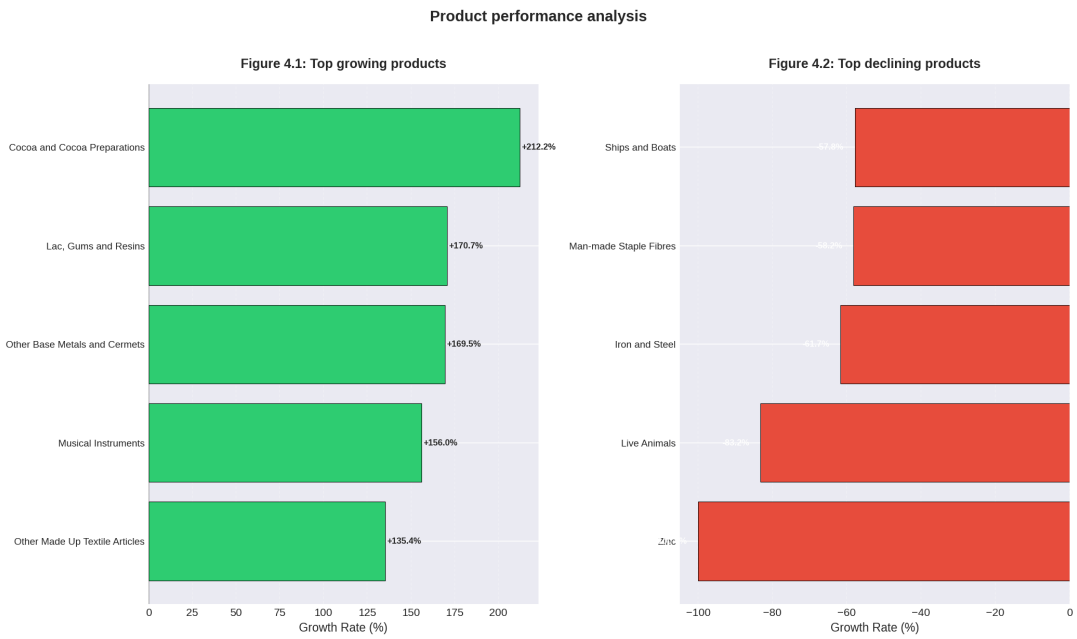

Figure 4.1: Top growing and declining products, 2024–2025

Source: Authors' calculations.

Table 4.1: Top 5 growing products

Product	Growth Rate (%)	Change ($M)
Cocoa and Cocoa Preparations	+212.2%	$+69.5M
Lac, Gums and Resins	+170.7%	$+5.3M
Other Base Metals and Cermets	+169.5%	$+1.0M
Musical Instruments	+156.0%	$+0.3M
Other Made Up Textile Articles	+135.4%	$+1.3M

4

5. Growth Drivers

KEY POINTS

- Ontario contributed 68.8% of total growth
- Top 1 provinces drive 80% of growth (Pareto principle)
- Regional concentration suggests targeted policies could yield high returns

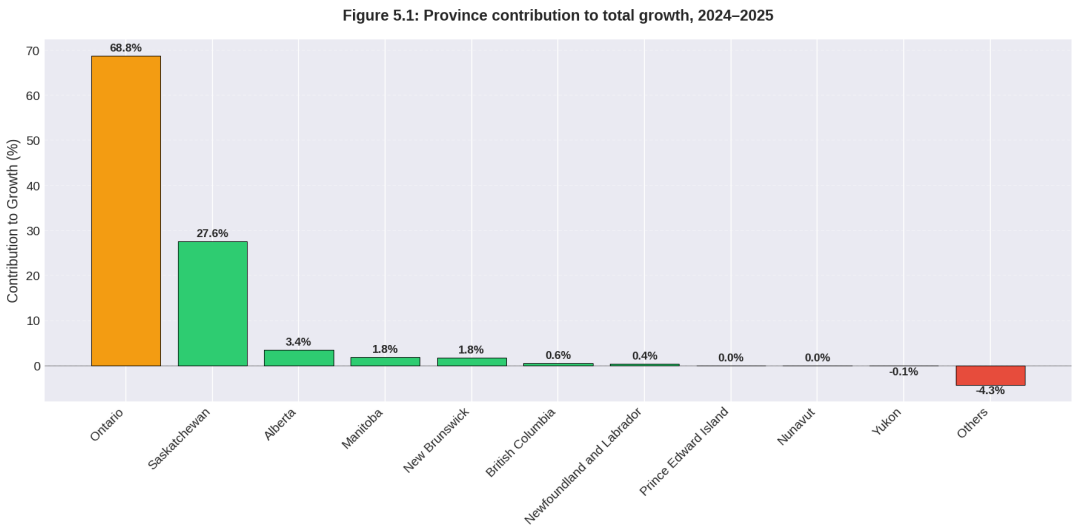

Figure 5.1: Province contribution to total growth, 2024–2025

Source: Authors' calculations.

Table 5.1: Province contribution to growth

Province	Contribution (%)	Change ($M)
Ontario	68.8%	$+1,371M
Saskatchewan	27.6%	$+549M
Alberta	3.4%	$+69M
Manitoba	1.8%	$+36M
New Brunswick	1.8%	$+36M
British Columbia	0.6%	$+11M
Newfoundland and Labrador	0.4%	$+8M
Prince Edward Island	0.0%	$+0M

5

6. Forecast Analysis

KEY POINTS

- +2.2% growth expected over next 6 months
- Model shows HIGH confidence (R^2=0.960, MAPE=2.5%)
- Projected 6-month total: $7,642M

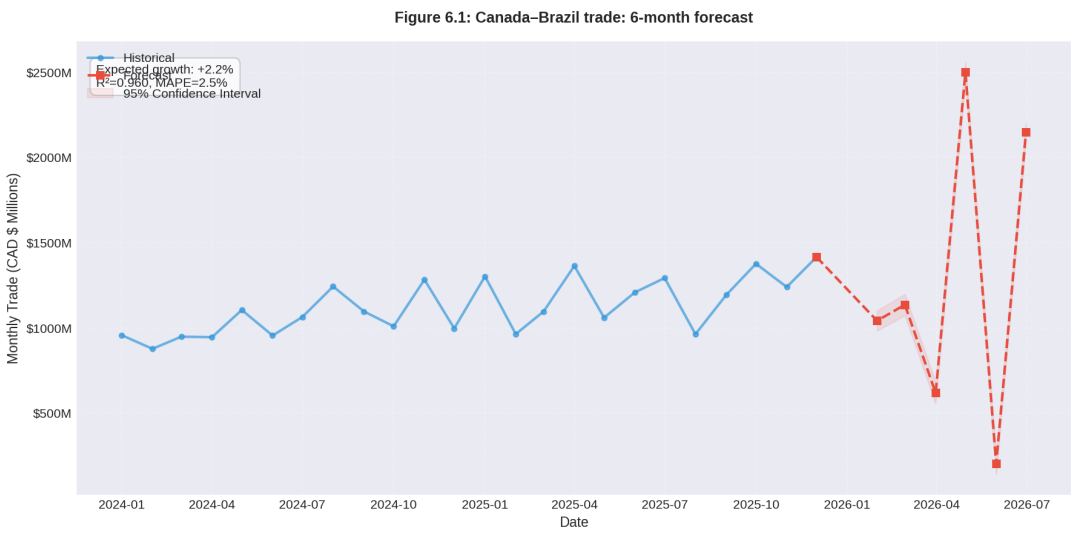

Figure 6.1: Canada–Brazil trade: 6-month forecast

Source: Authors' forecasts based on Prophet model.

Table 6.1: Forecast summary

Metric	Value
Current 6-month average	$1,246M
Forecasted 6-month average	$1,274M
Expected growth rate	+2.2%
Projected 6-month total	$7,642M
Model R^2	0.960
MAPE	2.5%

6

7. Strategic Recommendations

KEY FINDINGS

- Total trade grew +16.0% from 2024 to 2025
- Ontario contributed 68.8% of total growth
- Cocoa and Cocoa Preparations led product growth at +212.2%
- +2.2% growth expected over next 6 months

7.1 Focus on high-growth regions

→ Prioritize trade development in Ontario (68.8% of growth)

→ Allocate additional resources to trade missions in this region

→ Consider establishing dedicated trade representation

7.2 Capitalize on product momentum

→ Develop targeted marketing for Cocoa and Cocoa Preparations sector (+212.2%)

→ Organize buyer missions connecting Brazilian producers with Canadian importers

→ Explore value-added opportunities in this supply chain

7.3 Address underperforming areas

- → Investigate causes of Yukon decline (-100.0%)
- → Conduct stakeholder interviews to identify barriers
- → Consider targeted incentives to reverse trend

7.4 Prepare for projected growth

- → Begin supply chain planning for +2.2% expected increase
- → Monitor seasonal patterns to optimize inventory
- → Track forecast accuracy monthly

Annex: Methodology and Data Sources

A.1 Data Sources

- Statistics Canada - International Trade Database
- Brazilian Ministry of Economy - Comex Stat
- World Integrated Trade Solution (WITS)

A.2 Analytical Methods

- **Growth Rate:** ((2025 – 2024) / 2024) × 100
- **Market Share:** (Provincial Value / Total) × 100
- **Contribution:** (Provincial Change / Total Change) × 100
- **Forecast:** Prophet time series with linear growth

A.3 Technical Notes

- All values in Canadian Dollars (CAD), nominal terms
- Merchandise trade only (services excluded)
- HS Chapter classification based on Harmonized System
- Analysis period: 2024 – 2025
- Generated: March 19, 2026

Report ID: CAN-BRA-20260319_192612 | Generated: March 19, 2026
